IMUGEN™

PACKAGING AND SHIPPING INSTRUCTIONS

LABELING – REQUIRED INFORMATION:

- At least two patient specific identifiers:
  - Patient first and last name
  - Medical record number
  - Patient date of birth
- Date of specimen collection

Completely fill out the Test Requisition Form

PACKAGING:

Specimen may be shipped under ambient conditions (i.e. no ice required).

Shipment of any biological material must comply with the regulations of the DOT and IATA:

- Place each blood tube into one of the slots in the segmented Aqui-Pak™ absorbent pouch.
- Roll the Aqui-Pak pouch, tube over tube, and place it into the biohazard specimen bag.
- Wrap the biohazard bag in the bubble wrap sheet.
- Place the wrapped biohazard bag into the transport box.

SHIPPING:

Place box in FedEx® UN 3373 clinical pak provided.

Place the enclosed FedEx label on the UN 3373 clinical pak.

If the customer location does not have a regularly scheduled FedEx pickup, call 1-800-463-3339 to request one. Press "0" and specify that you would like to schedule a pickup for a return package.
